PROFILE

Third-year Software Engineering student at Addis Ababa Science and Technology University (AASTU), focused on building practical web applications that address real-world problems. Interested in full-stack development, clean interfaces, back-end logic, and continuously improving through hands-on projects.

TECHNICAL SKILLS

Languages	JavaScript, Python, Java, C++
Frontend	HTML5, CSS3, React, responsive design
Backend	Node.js, Express.js, REST APIs
Databases	MySQL, PostgreSQL, MongoDB
Tools	Git, GitHub, Visual Studio Code

PROJECTS

FixMyArea View project

A web application that helps residents report local community issues, such as potholes and broken streetlights, so reports can be tracked.

MediNear View project

An application designed to help people find nearby pharmacies that have the medicine they need, especially when time matters.

eCommerce — Haroni Building View project

An online store project intended to help local vendors in Wolaita Sodo list products and reach customers online.

Personal Portfolio View project

A responsive portfolio website built with HTML, CSS, and vanilla JavaScript, featuring light/dark theme switching and project showcases.

EDUCATION

Addis Ababa Science and Technology University (AASTU)

BSc studies in Software Engineering — Third-year student
